Survey on Interest in Televising Board Meetings To Town Boards and Committees

**From Stow TV
Local Access Channel Advisory Committee
978-897-7732
stowtv@stow-ma.gov**

Stow TV is currently recording and televising Selectmen meetings on cable channel 9. We would like to determine what additional Town Boards and Committees have an interest in televising their meetings. This information will help Stow TV make plans and gauge what additional resources the station will need.

We will appreciate your response to this survey by Feb. 17. Please contact Anne VanTine, the Stow TV Coordinator, with any questions or additional comments.

Would you like to have your regular committee meetings televised starting sometime in 2006?

If necessary to be televised, would you consider moving your regular meeting time, or moving your meeting location to (to Warren or some other designated room)?

If not regular meetings, would you like to televise an occasional special meeting or presentation?

Please provide any additional comments or suggestions.

Your name _____

Board or Committee _____

Date _____
